

VACANCY

SENIOR SOFTWARE DEVELOPER

Do you have experience in full-stack development, design and architecture? Fantastic!

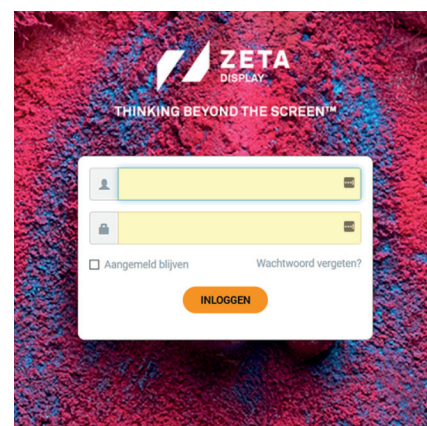

ZetaDisplay is an innovative international company within the digital signage Industry. We are looking for an experienced full stack developer to strengthen the team and join us in building and further develop our great product portfolio to support our customers achieve their goals.

As a software developer you will join a cross-border team of approximately 30 people in the Product unit reporting to the Director of Software Engineering or local team leader.

The role

We have a complete digital signage solution consisting of one of the market's most advanced publishing tools, integrations with content providers and partners, hardware and software to play content on different types of digital surfaces, and a monitoring system to manage a complex system with players and screens in many different locations.

We work with continuous integration and it is a short way from idea to finished product. You will join an international team located in Finland, Sweden, Netherlands and Norway with very high competence within the MS stack with a great development ambition.

THINKING BEYOND THE SCREEN™

WHO ARE YOU?

You probably have 5+ years of experience working with backend development across several languages, and you are eager to learn and adopt new technologies. You also possess experience and knowledge in frontend development. Your ability to write efficient, secure and readable code is important.

QUALIFICATIONS

- Relevant education within IT and technology subjects, or other relevant education at minimum bachelor level. Sufficient experience can compensate for lack of education
- Relevant experience with fluent software development in C#, .Net, .Net Core
- Solid knowledge of ASP.NET / ASP.NET Core, MVC / Web API
- Solid knowledge of SQL, Entity framework Experience with flexible development methodology and continuous deliveries
- Fluent in English

AN EXTRA PLUS IF YOU HAVE EXPERIENCE AND KNOWLEDGE OF

- Azure & Azure DevOps, TFS, Git
- TypeScript
- SCRUM, or similar

WHAT REALLY DIFFERENTIATES YOU

- Experience on designing scalable, high availability systems
- Passion on some specific area, such as QA automation, SW development processes, CI/CD etc.
- Interest and commitment to all technology. Software, hardware, infrastructure and the whole stack are important for creating good solutions
- Problem solving mindset with a communicative and assertive personality
- You are curious and proactive and a desire to contribute in several areas

ZETADISPLAY OFFERS

- A great team and a good social environment
- A flexible workplace
- Your product is visible to many
- Short way from idea to decision
- Have a major impact in changing and scaling our industry
- Work with the latest tech applied in the cloud
- Attractive benefits

LOCATION

Possible location of the position is Vaanta, Finland / Malmö, Sweden / Moordrecht/Netherlands.
